

# WIRELESS DISTANCE CHARGER

POWER **WHERE** YOU WANT IT,  
**WHEN** YOU NEED IT

## DISTANCE WIRELESS CHARGER

WCP BL 03

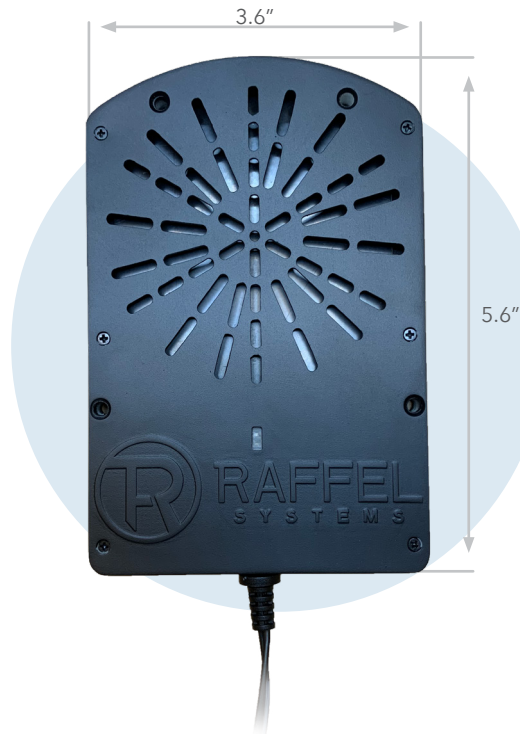

This retrofit wireless charger can go the distance. Retrofit desks and other case goods by easily mounting the wireless charger using four screws, or mount underneath upholstery.

### Features Include:

- Charging distance: 15 - 30mm
- LED Power Indicator
- FCC Certified

### Electrical Specifications:

- 10W charging at 29VDC input voltage
- Over-temperature protection
- Input over-voltage protection

## INSTALLING THE DISTANCE WIRELESS CHARGER

To prevent overheating, an air cavity is needed.

Following both the recommended minimum air cavity dimensions and the charging distance specifications ensures an optimum charging experience.

For the best charging performance, the charging distance specs are:

- Min. thickness: 15mm
- Max. thickness: 25mm
